## Peace Pledge

I pledge to live in peace.

I am a peace maker.

In spite of the reality of the negativity that may be before me, I choose to make decisions that lead to peace and to be the change that I want to see.

I pledge to be considerate of others and express my views with civility.

I pledge to be mindful that I must work towards a better state of social wellness.

Therefore, I pledge to target my potential and not my classmates or friends.

I have discovered that I have the velocity and momentum to create a better world for us all.

I am creative, I am compassionate, I am calm.

**I CHOOSE PEACE!!!**
